

PRODUCT CONFORMITY CERTIFICATE

This is to certify that the

MSFM S2.5T Multi Sensor Flow Meter

Manufactured by:

Detectronic Ltd

Regent Street,
Whitewalls Industrial Estate,
Colne, Lancashire
BB8 8LJ

has been assessed by CSA Group and for the conditions stated on this certificate complies with:

Performance Standards and Test Procedures for Continuous Water Monitoring Equipment, Part 3: Performance standards and test procedures for water flowmeters, Environment Agency, version 4, March 2020

The combined performance characteristic (U_c, the expanded uncertainty) is **6.65%** % (Class 3)

Certification ranges:

0 to 30l/s for 197mm channel 0 to 20l/s for 152mm pipe 0 to 25l/s for 188mm pipe 0 to 30l/s for 244mm pipe

Project No.: 80176090

Certificate No: CSA MC180336/03 Initial Certification: 15 August 2018 This Certificate issued: 15 August 2023 Renewal Date: 14 August 2028

Andrew Young

Environmental Project Engineer

MCERTS is operated on behalf of the Environment Agency by

CSA Group Testing UK Ltd

The MCERTS certificate consists of this document in its entirety.

General Notes	

Approved Site Application

Any potential user should ensure, in consultation with the manufacturer, that the monitoring system is suitable for the intended application. For general guidance on monitoring techniques refer to the Environment Agency Monitoring Technical Guidance Notes available at www.mcerts.net

The product is suitable for use, where it is appropriate, for regulated applications such as abstraction, effluent discharge, ultraviolet disinfection and industrial processing.

Basis of Certification

This certification is based on the following test report(s) and on CSA Group's assessment and ongoing surveillance of the product and the manufacturing process:

- Detectronic MCERTS MSFM Open Channel Flow Meter. Issue 2 dated 28/03/2018.
- WRc Witness testing, Report ref: UC12499/14677-6 dated May 2017
- Detectronic '..MCERTS MSFM Open Channel Flow Meter and Minor modification to MCERTS MSFM 2.5T - Performance test', Issue 2, dated 05/06/2022.

Product Certified

The MSFM S2.5T Multi Sensor Flow Meter measuring system consists of the following parts:

- Multi sensor flow meter control unit with integral temperature module
- PDCR1830 hydrostatic pressure transducer
- ESPF2 ultrasonic Doppler velocity sensor

This certificate applies to all instruments fitted with Firmware version 4.04 (serial number 20132771955) onwards.

Certificate No: This Certificate issued: CSA MC180336/03 15 August 2023

Certified Performance

The instrument was evaluated for use under the following conditions:

Ambient Temperature Range: -25°C to +60°C

The instrument meets MCERTS Class 3 requirements for the combined performance characteristic as specified in Table 6 of the MCERTS performance standard. Details of individual performance characteristics are summarised below:

Results are expressed as error % of certification range, unless otherwise stated.

6.3.13 Bi-directional flow

6.3.14 Flow reversal

Certificate No: CSA MC180336/03 15 August 2023 This Certificate issued:

Description

The Detectronic MSFM S2.5T Multi Sensor Flow Meter is a self-contained battery powered GSM Data-logger intended to be used for open channel flow measurement.

The flowmeter uses a submerged sensor which is profiled to resist fouling. An integrated temperature sensor records the water temperature, a pressure transducer is used to calculate depth, and a velocity sensor which employs the Doppler principle is used to measure flow velocity.

Measurements are recorded at intervals selected by the user and flow rates are calculated using a temperature compensated cross sectional area and velocity method. Recorded information can be downloaded on site or is transmitted via GPRS to a secure website.

General Notes

- 1. This certificate is based upon the equipment tested. The Manufacturer is responsible for ensuring that on-going production complies with the standard(s) and performance criteria defined in this Certificate. The Manufacturer is required to maintain an approved quality management system controlling the manufacture of the certified product. Both the product and the quality management system shall be subject to regular surveillance according to 'Regulations Applicable to the Holders of CSA Certificates'.
- 2. The design of the product certified is defined in the CSA design schedule V02 for certificate No. CSA MC180336/03.
- 3. If the certified product is found not to comply, CSA Group should be notified immediately at the address shown on this certificate.
- 4. The certification marks that can be applied to the product or used in publicity material are defined in 'Regulations Applicable to the Holders of CSA Certificates'.
- 5. This document remains the property of CSA Group and shall be returned when requested by CSA Group.
